FIVE BIG QUESTIONS

Before making any decisions, it's important to ask yourself (and your spouse) some key questions about elements of your life that could influence your personal Social Security strategy.

1. When are you planning to retire?
2. What will your earnings look like if you continue to work past 62?
3. What other sources of income will you have in retirement?
4. Based on your health and family history, how long do you expect to live?
5. Are you married or divorced?
